

CMS Anniversary Campaign

The College Music Society enjoys a rich history of achievement on behalf of music in American cultural life. The Anniversary Campaign will enable The College Music Society to assist the music and higher education community in addressing the ever-changing world of music over the next fifty years.

Overview

As part of its 50th anniversary celebration, The College Music Society is conducting an important fund-raising initiative, the CMS Anniversary Campaign. Its purpose is to provide the resources necessary to support innovative approaches to engagement and outreach (1) on campus and off campus and (2) within undergraduate and graduate curricula. The CMS Anniversary Campaign will enable the Society to continue to foster effective and original approaches to curriculum, pedagogy, and audience development for the benefit of strengthening the place of music in our culture.

Goal

The goal of the CMS Anniversary Campaign is to enhance cultural life through the leadership of those in music in higher education.

Programs

Engagement and outreach programs will be developed within such areas as composition, performance, scholarship and research, education in music, and music technology. These programs will support workshops and institutes, new approaches to pedagogical training for future teachers in higher education, and curriculum development.

Make Your Contribution
